## CARE AND MAINTENANCE

**Storage :** Sheets should be stored horizontally with the top sheet turned face down and a thick hard board placed on top to protect the material from possible damage and reduce the chances of getting warped. Laminate sheets should be protected from moisture and should never be stored where they may come in contact with the floor or outside wall.

**Abrasives :** Abrasive pads, scouring powders or cleansers may permanently damage the laminate surface making it susceptible to staining.

**Harsh Chemicals :** Harsh chemicals such as oven cleaner, toilet cleaner or drain cleaner will etch and discolor the decorative surface. High Pressure Decorative Laminates are not designed to resist continual contact with these chemicals. If any of these products spill over the surface remove immediately, rinse thoroughly and wipe dry.

**Hot Objects :** Even though HPL has high heat resistance, exposure to temperatures greater than 135°C is not recommended. Hence, do not place hot frying pans or dishes directly from the oven or cooktop on the laminate surface. As a precaution, protect the surface from heat generating appliances such as pressing irons, toasters, curling irons and electric cookers by using a trivet or insulated pad. Prolonged exposure to temperatures above 65°C may result in separation of the laminate from the substrate.

**Sharp Objects :** Never use knives or other sharp objects directly on the decorative surface. Use of chopping board or counter saver is recommended.

**Impact :** Even though High Pressure Decorative Laminates have excellent impact resistance, chipping or cracking may occur. Do not abuse the High Pressure Decorative Laminate by dropping heavy objects such as cans, dinnerware or glasses or deliberately hammering directly on the surface.

## CLEANING

1. To clean the surface, use a damp cloth or sponge and a mild soap or detergent.
2. Stains belonging to group 2 such as coffee or tea can be removed using a mild household cleaner/detergent and a soft bristle brush.

## WARRANTY

VENTURA warrants that all its products are free from manufacturing defects and perfectly fit for use under normal conditions. The product must be inspected prior to installation. In case of any claims, the liability of the company is limited to the cost of the product only.

## लैमिनेट शीट चिपकाते समय निम्न सावधानियाँ रखनी चाहिए

- लैमिनेट शीट लगाते समय यह जाँच लें कि सभी शीट्स का रंग एवं डिज़ाइन एक समान हैं।
- लैमिनेट शीट का बड़ा टुकड़ा (piece) लगाते समय अत्यधिक सावधानी बरतें।
- लैमिनेट शीट को 90° में काट कर चिपकाने से CRACK आने की संभावना रहती है।
